To my Patrons and Friends in Bangor and vicinity Greeting.

For many years I have used VULCANITE RUBBER as a BASE for artificial teeth. But there is mercury in this rubber, and many who were teeth prepared in this way have suffered severely with canker in the mouth. And for more than three years I have used a composition—the CELEBRATED GUM BASE, which is entirely free from said mercury. This plate is entirely free from everything that can produce soreness in the mouth. My patients are delighted with it, and the only fear is the latter will become dissatisfied for a new set of teeth made upon Celluloid for a very small sum.

All dental work that may be given to me, I will do in the best possible manner and at the lowest terms.

FROM BROWNFIELD.

An Aged Man Drowned.

BROWNFIELD, July, 17. Willing S. Hasking of North Anson, age about 70 years was drowned last night. The body was recovered this morning.

FROM BIDDEFORD.

A Serious Fall.

BIDDEFORD, July 17. Ralph Whitehead, Union Falls, fell sixteen feet from the beam of a bath-house floor yesterday, and sustained severe injuries about the head and broke his thigh. He remained in an unconscious condition during the day. The injury about the head causes some doubts of his recovery. Mr. Whitehead was about 65.

A Bad Speculation.

Daniel W. Perkins, Kennebunk, hired a team and carriage a few days ago, stating that he was going to Goodwin's mills to deliver a lecture to the Greenbackers and return the next forenoon. Nothing has been seen of Perkins since. The horse was returned by a small boy Monday night in a very bad condition. A warrant is out for Perkins' arrest.

FROM WATERVILLE.

DOMESTIC NEWS.

THE HOT WAVE.

How St. Louis Suffered.

CHICAGO HEAVILY VISITED.

Reports From Various Points.

Reports From Various Points.

NEW YORK, July 17. Kiernan reports the temperature as follows: 8 A. M., 80°; 9 A. M., 81°; 10 A. M., 83°; noon, 87°; 2 P. M., 91°; 4 P. M., 91°; Clinton 91°; Cleveland 90°; Indianapolis 92°; Pittsburgh 96°; St. Louis 95°; Baltimore 94°; Washington 98°.

A Change of Weather.

NEW YORK, July 17. A St. Louis despatch dated last night, says that men became to-day abstentious and temperate who have been addicted to excesses for years. Probably less liquor was sold in St. Louis than in the same time for a long period. The conviction also arose from a large number of Germans prostrated by the sun, that lager beer is hardly less dangerous, and several physicians expressed themselves that it is really more heating than whiskey. The favored drinks to-day were claret punches, Sangaree's cream punches, lemonades, buttermilk, sour wines and mineral and soda waters, which were drank in enormous quantities.

Cooling Heat.

It is reported that the signal service believe that the intense heat on shore now moving north of St. Louis, is moving slowly eastward, with prospect of reaching the Atlantic cities about Thursday. The probability is that it will be tempered by a cooler current from off the Lakes before it reaches the sea coast.

Heat in Chicago.

CHICAGO, July 17. Yesterday's fatal cases of sunstroke number nine. To-day the fatalities as far as known are four. Horses are suffering most, some fifty having died since the heated term began. The cold wave seems to have reached the Mississippi river, but according to reports is not of great a relief as anticipated, because after it has passed the heat rises again right away. The thermometer has been as high as 98°. Average 92°.

In St. Louis Over 1500 Persons Suffer From Sunstroke.

ST. LOUIS, July 17. The weather continues atrociously hot but there is a fine southern breeze which tempers the heat somewhat. It is thought the heated term will continue some days yet. Sunstroke cases have been but few this morning. But five cases have been treated at the dispensary and they were light ones. The total number of prostrations during the heated term cannot be accurately stated as a large number of personal have been treated at home or elsewhere by family physicians who have not been reported, but it is probably safe to say that during the past ten days between 1500 and 2000 persons were more or less effected by the heat and required medical treatment.

Reports From the Interior and Kansas.

Telegraphic and other reports from interior towns in Missouri and Kansas mention extremely hot weather and numerous sunstrokes quite a number being fatal. In some parts of Southern Missouri and Kansas the weather has been so intensely hot during the day that all out-door business had to be suspended and considerable part of harvesting in several localities has been done by moonlight.

The Wave of two Thermometers.

ST. LOUIS, July 17. Two thermometers on 4th street recorded temperature to-day as follows: 8 A. M., 83½° and 87°; 9 A. M., 91° and 96°; 10 A. M., 93° and 99°; 11 A. M., 94° and 97°; 12 M., 95° and 99°; 1 P. M., 10° and 97°; 2 P. M., 101° and 99°; 3 P. M., 102° and 97°; 4 P. M., 101° and 98°; 5 P. M., 98° and 97°. This is a trifle lower range than yesterday, but shows that the heat is by no means over. The prevalent at this writing is that the evening and night will be cooler and more comfortable with a fair indication of rain. There has not been much done at the city dispensary to-day, and there are no severe cases there so far.

The Temperature of Canada.

TORONTO, Canada, July 17. Despatches from various parts of Ontario, to-day, show that the temperature ranges from 90° to 103° in the shade. Although a large number of cases of sunstroke is reported, none terminated fatally.

In Buffalo.

BUFFALO, N. Y., July 17. The weather was intensely hot to-day the thermometer ranging up to 90°. A number of persons were prostrated by the heat; one case proved fatal.

In Cincinnati.

CINCINNATI, O., July 17. There were three cases of sunstroke here this afternoon. The heat was excessive and necessitated a partial suspension of business.

In Cincinnati.

CINCINNATI, Ohio, July 17. To-day has been the hottest of the season. The mercury at the Signal Office reached 96° and the observer reports an average of 87° for the past 24 hours. Only three cases of sunstroke are reported; none fatal.

In Milwaukee—Not Excessive.

MILWAUKEE, July 17. The heat to-day was very oppressive, the thermometer ranging from 90° to 100° in the shade. There was no afternoon session of the Chamber of Commerce and street labor was generally suspended. One hundred and three sunstroke cases of sunstroke are reported for to-day.

Great Effects of the Great Excessive Heat in Chicago.

CHICAGO, July 17. The reports of cases of sunstroke continue to-day, because of the absence of any central dispensary for treatment. The heat, however, has been more powerful and fatal to-day than any previous day. There are a large number of minor cases, probably thirty, and many horses succumbed to the heat.

The Freshmen Eights.

CORNELL WINS THE RACE.

Time: Cornell 17-43 3-4; Harvard 17-57 3-4

Very Hot Weather—Coming up for the Race.

AUBURN, N. Y., July 17. The Cornell-Harvard eight oared Freshman race was called by Referee Mantle at 4.15 P. M. The weather was excessively hot and the water very calm as well. Cornell was about first and paddled to their position on the inside of the course. Harvard followed soon after and halted in their position on the outside awaiting the word.

Got a Good Send off—Equidistance Secured.

With a few preliminaries the Referee gave the word from the moving vessel about stern of Cornell. At the word "Go" the crews started with a splendid send off, Cornell taking the shoulder from the start to the finish on the Southern Central Railroad not more than eight rods from the course. The crews seemed to take water simultaneously and very leisurely started at a rate of nearly 40 strokes per minute.

Cornell Leads from the Start.

In the first quarter of a mile Cornell had forged half a length ahead, which at the half mile was increased to a full length. The time was 2.30. Cornell was rowing at a 40 stroke and Harvard 38. At the mile the oats was made in 5.43, with Harvard one and a half lengths in the rear. Two miles was passed by Cornell in 11.35 and Harvard in 11.54, each pulling thirty-two strokes per minute. Previous to reaching the body Harvard made a powerful spurt but the superior pluck and dash of Cornell maintained a commanding lead. The last mile was rowed

Cornell's Victory

and the shouts were tumultuous. Cornell crossed the finish line the winner by nearly the length of a boat. Time: Cornell, 17.43 3-4; Harvard 17.57 3-4. Cornell rowed at a leisurely stroke to 17.37½. Cornell, of course, had the great majority of admirers in an audience of 6,000, and when they finished they were greeted with the enthusiastic cheering and the peculiar cry of "Cornell" from thousands of throats.

The Contestants

among the Cornell contests was of the seldom description, a great number remaining into the lake water deep to carry their victorious comrades ashore. Courtney, the champion single sculler, was the official time keeper.

Cornell's Appearance.

It was the general opinion that Harvard rowed in better form than her opponents and the superior quantity of the Cornell crew was their pull in the bow. Each crew was forced to row a substitute. It was generally conceded Cornell had the advantage in position as the water was smoother in place than in the outside course where Harvard rowed. Each crew was weak on the starboard and the feathering of Cornell was fatty.

The Betting.

There was not a vast amount wagered on the result and no odds were offered in favor of either crew. Before the race the contest the centre bonus of three miles between Cornell and Harvard, which was distinctly marked by flags moving in the lake, a quarter of a mile apart at most. The entire New York city and Boston press were represented in the press car and most of the interior cities of the State.

THE SERBIANS.

Wholesale Massacres.

VALLEJO, Wyo., July 14, Leaving that there were Indians prowling around Sykie camp road to Walla Walla yesterday afternoon Al ordered the cavalry to route to Lewiston under Forsyth to hurry back and go quickly to Wallula to head off any movement of hostiles in that direction. Reports reached me unofficially at 6 P. M. that the troops were fighting near Cayuse station. That report is confirmed in part by his last: signed Parkinson to Miles' aid, also at the same time sent a courier to Stafford, 90 miles west, to pass on to Cayuse station, some five hundred miles from him in the absence of the commanding General, who probably is in or near Lewiston. I start at once to assume general direction of the three columns until further orders. TERRASON.

Miles Again Takes the Hostiles.

WASHINGTON, July 17. Adjutant from Maxwell, Kan., 16th of Moravia, under date of Deadwood, yesterday, telegraphs that Miles struck the enemy at Umatilla Agency this morning. After a stubborn fight of several hours, the enemy commenced falling back. Miles' cavalry, charged the enemy, driving them in confusion several miles. Our wounded are seven; no killed. The enemy's losses so far five killed etc. 5 large number wounded.

Various Reports.

SAN FRANCISCO, July 17. A Boise City despatch says that it is not true that the Umatillas have joined the hostiles; on the other hand a hundred warriors joined Col. Forsyth, and fought the hostiles yesterday and brought in 25 scalps and 300 horses. Gen. Howard has been relieved from duty. The following has been received from Gen. Whiston, dated Umatilla Agency 15th: The hostiles are reported moving from their position near the head waters of Malley's creek. I send Forsyth with a column in quick pursuit and follow him with Miller's column. McKean, an Umatilla interpreter with the Umatilla scouts, now among the Bannocks' fighting Buffalo and Scabed Chief Egan is reported killed.

A gentleman from Yakima Valley brings the following news concerning affairs at the agency: There are five thousand Indians there commanded by Chief Joseph Squires, but he has little or no influence with the tribes. They have few arms and no ammunition, and even if so inclined, could not offer the hostiles battle. Thus far they are peaceably disposed and Agent Wilbur apprehends no danger from them, although some runaways and disaffected Indians have been coming in lately.

Chief Moses with his full quota of Indians are camped in Kittitis's Valley and the settlers are afraid they may conclude to attempt depredations, in consequence of which they are seeking the protection of the army.

Yokum City is the boundary of the Simcoe reservation, is full of people. Last night about 50 Umatilla Indians passed across the town and reservation stealing and driving away stock. They shot at a boy on horseback and his life was rescued by his horse's speed. The boy escaped by hard riding.

Jones, Indian Agent, arrived yesterday from Indian Territory for the purpose of receiving the Cheyenne band of Fort Reno prisoners now in camp at Fort Leavenworth, to the Cheyenne Agency, Indian Territory, about 25 miles south from Kinsas for keeping, including the territory occupied by the Modocs.

The Mexican Government and the Apaches.

WASHINGTON, July 17. Secretary Schurz to-day on being asked his opinion as to the result of the extradition treaties between the United States and Mexico, and the commission recently appointed by Commissioner Hoyt for the purpose of carrying them into effect, said he considered the treaties and commission very important, and already productive of good results. Gen. Sheridan stated to some length the interesting letter he had received from Gen. Ord, giving the arrangements, and already practically in operation between the two countries for the pursuit of hostile Indians. These arrangements are fully approved by the Administration and Sheridan and Ord have been instructed to carry them out.

GERMAN MISSIVES.

The Opposition and the Anglo-Turkish Treaty.

LONDON, July 17. The statement in the News yesterday that the opposition leaders had decided to require the presence of the Anglo-Turkish Convention, and that the action of Parliament on the subject was delayed in consequence, is declared to be a great misstatement of facts. The Opposition leaders will not oppose the ratification of the Convention, but will simply call attention to the fact that the Government has not given Parliament sufficient information to enable it to form a judgment on the subject. The Government will probably ask Parliament to-morrow before determining their policy.

Beaconsfield.

It is an attempt to turn public attention from the dangers connected upon Austria's course, in the case of failure of the Congress, to the Russian occupation of Bulgaria, which, it is not likely, to cause trouble, especially as the majority declare that Italy could not at Berlin, and cannot elsewhere, consent to hinder the British police which all other powers have accepted.

Pitts, the new proprietor of the Snell House, evidence a determination to maintain the good established reputation of a first-class house. Its fine location, its airy apartments and the cleanliness of sin and waiters make an attractive house: the fried yeallet——The Greenhead Pub. ripe does not seem to have much of a hold of the people in this county. I am informed on the best of authority that there are no disturbances in or about Monitor and but few in the county. Quite a large Republican majority will be rolled up. Appearances show that their prominent men without friends there.

Hot Time in the Schoolyard. Yesterday morning two of unknown were a large building belonging to one, and getting their heads together, their plans up a joint was well-known lawyer, who was in the room in the opposite block. They secured the dog and, placing it in a small box, in which they had previously made holes in order to allow the life to circulate, gave him a small way to the room with instructions to tell the occupant about his dog, upon a long distance. The boy went duly delivered and the lawyer thinking it of course one had sent him a present, carried down the box and put it in the office of the building. When the boy came home he opened the door, and taking the box he partially lifted the cover, in order to allow the inhabitant to pass into the open. His surprise and indignation, when the building calmly jumped from the box into the dogs and began to bark at him, can more easily be imagined than described. The joke simply got out among the boys, and some of them were wicked enough to tell him "if it was a good dinner?"
